

**Azrock Tile Flooring Products by Tarkett**

**LEED™ 2009 Green Building Certification Program**

**Advance LEED 2009 Credit Matrix**

LEED Rating	Category	LEED credit	Credit Name	Possible Points	Intent	Applicability to Azrock Tile Flooring Products	Azrock Advance Details
LEED 2009 NC, CI, Schools	Materials & Resources	MRC2	Construction Waste Management	1- 2 Points	To divert construction and demolition debris from disposal in landfills and incineration facilities. Redirect recyclable recovered resources back to the manufacturing process and reusable materials to appropriate sites. 50% and 75% thresholds respectively.	Product contributes its portion (by weight or volume) of the total quantity of waste generated and diverted in the process of construction and demolition. Applicable when Contractor ReUse Program is in place	Tarkett's Contractor ReUse Program allows for flooring installation waste to be diverted from the construction /demolition process and recycled at Tarkett's manufacturing facility. Product contributes its portion (by weight or volume) of the total quantity of waste generated/diverted during construction / demolition
LEED 2009 EB	Materials & Resources	MRC3	Sustainable Purchasing: Facility Alterations and Additions	1 Point	To reduce the environmental and air quality impacts of the materials acquired for use in the upgrade of buildings.	Product contributes its proportionate value of post-consumer and pre-consumer recycled content ( <i>by cost</i> ) to the total cost of all materials on the project.  Product contributes its proportionate value of all materials extracted, processed and manufactured within 500 miles of the project site (by cost) to the total cost of all materials on the project  All Tarkett flooring adhesives are low-emitting adhesives, not exceeding the VOC standard set by SCAQMD Rule #1168 and CHPS-CA Section 1350.  Smart Spray aerosol is FloorScore certified and meets the Green Seal Standard for commercial adhesives GS-36. It is a no-VOC product.  All Azrock tile products are FloorScore Certified	25% Pre-Consumer recycled content. Go to <a href="http://www.azrock.com">www.azrock.com</a> for more information  Go to <a href="http://www.azrock.com">www.azrock.com</a> for radius map and more information  <1g/L. Go to <a href="http://www.azrock.com">www.azrock.com</a> for more information if needed  Go to <a href="http://www.azrock.com">www.azrock.com</a> for more information  The USGBC/LEED program now allows for FloorScore Certified products to contribute to this credit under an alternative compliance path. Go to <a href="http://www.azrock.com">www.azrock.com</a> for more information
LEED 2009 NC, CI, Schools	Materials & Resources	MRC4	Recycled Content	1- 2 Points	To increase demand for building products that incorporate recycled content materials, thereby reducing impacts resulting from extraction and processing of virgin materials. 10% and 20% thresholds respectively	Product contributes its proportionate value ( <i>by cost</i> ) to the total cost of all recycled materials on the project, including furniture and furnishings	25% Pre-Consumer recycled content. Go to <a href="http://www.azrock.com">www.azrock.com</a> for more information.
LEED 2009 NC, CI, Schools	Materials & Resources	MRC5	Regional Materials: Extracted/Processed/Manufactured Regionally	1- 2 Points	To increase demand for building materials and products that are extracted and manufactured within the region, thereby supporting the use of indigenous resources and reducing the environmental impacts resulting from transportation.	Product contributes its proportionate value ( <i>by cost</i> ) to the total cost of all materials extracted, processed and manufactured within 500 miles of the project site	Go to <a href="http://www.azrock.com">www.azrock.com</a> for radius map and more information
LEED 2009 NC, CI, Schools	Materials & Resources	MR Credit 6	Rapidly Renewable Resources	1 Point	To reduce the use and depletion of finite raw materials and long-cycle renewable materials by replacing them with rapidly renewable materials.	Product contributes its proportionate value (by cost) to the total cost of all rapidly renewable materials on the project, including furniture and furnishings	Go to <a href="http://www.azrock.com">www.azrock.com</a> for more information.
LEED 2009 EB	Materials & Resources	MRC9	Solid Waste Management: Facility Alterations and Additions	1 Point	To divert construction and demolition waste from disposal to landfills and incineration facilities. Redirect recyclable recovered resources to the manufacturing process. Redirect reusable materials to appropriate sites.	Azrock tile installation waste can be diverted from waste stream and redirected to manufacturing process for recycling.	Tarkett's Contractor ReUse Program allows for flooring installation waste to be diverted from the construction /demolition process and recycled at Tarkett's manufacturing facility. Product contributes its portion (by weight or volume) of the total quantity of waste generated/diverted during construction /demolition process
LEED 2009 NC, CI, Schools	Indoor Environmental Quality	EQc4.1	Low Emitting Materials: Adhesives & Sealants	1 Point	To reduce the quantity of indoor air contaminants that are odorous, irritating and/or harmful to the comfort and well-being of installers and occupants.	All Tarkett flooring adhesives are low-emitting adhesives, not exceeding the VOC standard set by SCAQMD Rule #1168 and CHPS-CA Section 1350.  Smart Spray aerosol is FloorScore certified and meets the Green Seal Standard for commercial adhesives GS-36. It is a no-VOC product.	<1g/L. Go to <a href="http://www.azrock.com">www.azrock.com</a> for more information if needed
LEED 2009 NC, CI, Schools	Indoor Environmental Quality	EQc4.3	Low-Emitting Materials: Flooring Systems	1 Point	To reduce the quantity of indoor air contaminants that are odorous, irritating and/or harmful to the comfort and well-being of installers and occupants.	All Azrock tile products are FloorScore Certified	The USGBC/LEED program now allows for FloorScore Certified resilient flooring products to contribute to this credit under an alternative compliance path. Go to <a href="http://www.azrock.com">www.azrock.com</a> for more information.
